XXIX. BUDGET APPROPRIATIONS

The City is subject to Section 166.241, Florida Statutes, and is not authorized to contract for expenditures in any fiscal year except in pursuance of budgeted appropriates. EXHIBIT A

Scope of Services

The City desires a new automatic truck wash at their Spruce Street Yard to clean approximately 80 municipal waste collection vehicles on a daily basis. The system will be equipped with a new wash pad that will contain wash water runoff and direct it to an adjacent wash water treatment plant that can clean and recycle for reuse up to 85% of the wash water, or if desired, discharge a partially treated wash water into the City's sanitary sewer system. The system would allow rainwater to be directly discharged to the City's stormwater collection system with the use of a new, automatic diverter valve.

The wash system is anticipated to include at least two soapy water washdown trains, wheel cleaners, under carriage wash, and a clean water rinse stage. An RFID system, STOP/GO light, hand wash wands and water heater also will be provided. Options that will be offered to the City include a wash water cannon, blower dryers, interior pacing lights, automatic drain sediment clearing, and barrier walls to knock-down overspray and contain aerosol drift.

The City originally indicated they wanted a gantry system but would consider a fixed system. The systems are similar in that their washing features and performance are similar, however, with the gantry, the truck is parked and a wash cycle takes about 5 minutes. The fixed washing system has the truck slowly moving through the washing system and typically takes about 2 minutes. The City has some concerns about wash cycle timing with the latter. The final selection can be made by the City once the Design-Build Team finishes a cost and features comparison.

The project budget is \$1,200,000, inclusive of all design, permitting and construction.

Design Services

- New survey of the topographic features of the Yard in the vicinity of the new truck wash pad
- Confirm location of the property boundary along Grady Street.
- The CAD file of the completed survey will be used in the development of the construction plan set.
- Boring plan for the new truck wash pad to assess subsurface conditions, provided by WMBE subcontractor Arehna.
- Underground utility clearance
- Mobilize a drill rig to the site to conduct borings, collect soil samples and conduct relevant laboratory tests.
- The results of the field and laboratory investigation and recommendations for preparing the subgrade and pavement section will be included in a signed and sealed geotechnical report.

Engineering Evaluations

- Perform drainage calculations to design the stormwater conveyances and for permitting purposes.
 - Confirm sanitary sewer system invert elevations and develop a drainage profile.
 - Determine design requirements for the stormwater / wash water flush valve system.

Environmental Protection Commission of Hillsborough County (EPC) Wastewater Permitting

- The Design Team will prepare and submit a FDEP Notification/Application For Constructing A Domestic Wastewater Collection/Transmission System, processed through the EPC, for construction of a new sanitary sewer connection and will respond to up to two (2) Request for Additional Information (RAI) from the EPC. This task includes addressing comments from the City's Wastewater Department and payment of the EPC permit application fee.

City of Tampa Development Review and Building Permits

- The Design Team will attend two (2) pre-application meeting and one Development Review Committee (DRC) meeting to discuss review and permitting requirements from the City. The Design Team will make electronic and hardcopy submittal of the application package and will respond to comments to obtain approval for the proposed site modifications. Subsequent On-Site Piping and other City permitting will be Kokolakis' responsibility.
- Ardurra will provide signed and sealed copies of the drawings for use by Kokolakis in obtaining the City Building Permits.

SWFWMD Letter of Exemption

The project is not anticipated to result in additional impervious area and should be exempt from stormwater permitting. Ardurra will coordinate with SWFWMD and submit a Letter of Exemption.

The site is purportedly constructed on closed landfill and buried refuse and combustible gas may be encountered. Whether this is the case is currently unknown. It is therefore assumed that refuse will not be encountered and that coordination with and permitting through the Environmental Protection Commission of Hillsborough County (EPC) or the FDEP will not be required.

If such permitting is required, costs for those services and other typical services including; sampling investigations (soil and groundwater), combustible gas sampling and monitoring, monitoring well construction, environmental laboratory testing, preparation of contamination assessment plan (CAP), preparation of a remedial action plan (RAP) and site remediations (including potential removal of waste & affected soil, combustible gas venting, confirmation sampling, etc.) will be included in the Guaranteed Maximum Price to provide compensation.

CITY OF TAMPA INSURANCE REQUIREMENTS

Prior to commencing any work or services or taking occupancy under that certain written agreement or award (for purposes of this document, Agreement) between the City of Tampa, Florida (City) and Firm/Awardee/Contractor/Consultant/Lessee/non-City party, etc. (for purposes of this document, Firm) to which this document is attached and incorporated as an Exhibit or otherwise, and continuing during the term of said Agreement (or longer if the Agreement and/or this document so requires), Firm shall provide, pay for, and maintain insurance against claims for injuries to persons (including death) or damages to property which may arise from or in connection with the performance of the Agreement (including without limitation occupancy and/or use of certain property/premises) by Firm, its agents, representatives, employees, suppliers, subtenants, or subcontractors (which term includes sub-consultants, as applicable) of any tier subject to the terms and conditions of this document. Firm's maintenance of insurance coverage as required herein is a material element of the Agreement and the failure to maintain or renew coverage or provide evidence of same (defined to include without limitation Firm's affirmative duty to provide from time to time upon City's request certificates of insurance, complete and certified copies of Firm's insurance policies, forms, and endorsements, information on the amount of claims payments or reserves chargeable to the aggregate amount of coverage(s) whether during the term of the Agreement or after as may be requested by the City in response to an issue or potential claim arising out of or related to the Agreement to which Firm's insurance obligations hereunder may apply or possibly help mitigate) may be treated as a material breach of the Agreement. Should at any time Firm not maintain the insurance coverages required, City at its sole option (but without any obligation or waiver of its rights) may (i) terminate the Agreement or (ii) purchase such coverages as City deems necessary to protect the itself (charging Firm for same) and at City's option suspending Firm's performance until such coverage is in place. If Firm does not reimburse City for such costs within 10 days after demand, in addition to any other rights, City shall also have the right to offset such costs from amounts due Firm under any agreement with the City. All provisions intended to survive or to be performed subsequent to the expiration or termination of the Agreement shall survive, including without limitation Firm's obligation to maintain or renew coverage, provide evidence of coverage and certified copies of policies, etc. upon City's request and/or in response to a potential claim, litigation, etc.

The City reserves the right from time to time to modify or waive any or all of these insurance requirements (or to reject policies) based on the specific nature of goods/services to be provided, nature of the risk, prior experience, insurer, coverage, financial condition, failure to operate legally, or other special circumstances. If Firm maintains broader coverage and/or higher limits than the minimums shown herein, the City requires and shall be entitled to such broader coverage and/or higher limits maintained by Firm. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the City. No representation is made that the minimum insurance requirements are sufficient to cover Firm's interests, liabilities, or obligations. Required insurance shall not limit Firm's liability.

Firm acknowledges and agrees Firm and not the City is the party in the best position to determine applicability (e.g. "IF APPLICABLE"), confirm, and/or verify its insurance coverage. Acceptance by the City, or by any of its employees, representatives, agents, etc. of certificates or other documentation of insurance or policies pursuant to the terms of this document and the Agreement evidencing insurance coverages and limits does not constitute approval or agreement that the insurance requirements have been met or that coverages or policies are in compliance. Furthermore, receipt, acceptance, and/or approval of certificates or other documentation of insurance or policies or copies of policies by the City, or by any of its employees, representatives, agents, etc., which indicate less coverage than required does not constitute a waiver of Firm's obligation to fulfill these insurance requirements.

(Ref: use Detailed GMP Estimate and MBD Form-80 PTW)
- The CM (or D-B) participates in a meeting wherein the City will establish narrowly-tailored project goals for SLBE and/or W/MBE subcontractor participation on the project.
(Ref: use MBD Form-70)
- For each subcontracting package to be bid, the CM (or D-B) confirms with the MBD Office, the City's minimum contact list of available SLBE and/or W/MBE firms to be solicited. Note: strategic, extensive outreach is the CM/DB's responsibility (i.e. GFECF)
(Ref: use Minimum Contact List provided w/final Project EBO Determination Goal)
- The CM (or D-B) documents the notification of **all** potential subcontractors, including the SLBE or W/MBE firms identified above, i.e. minimum contact list of certified firms.
(Ref: use DMI 10-20 for construction phase Solicitation/Utilization outcomes)
- The CM (or D-B) receives, opens, and tabulates subcontract bid results. The City, including representatives of the managing department and the MBD Office, may be present for the bid openings or to review the bids submitted.
(Ref: use MBD Form-50 GFECF outreach w/documentation)
- The CM (or D-B) provides to the City, a tabulation of all bids received and its determination of the lowest responsive/responsible bidder. If bids received exceed contracted Guaranteed Maximum Price, CM (or D-B) advises City as to how they will proceed. If re-bidding is selected, notification at least equal to the original solicitation will occur. **(Ref: Reaffirm EBO Outreach)**
- As all subcontracts are executed, final copies are provided to the City. Where participation is achieved via sub-subcontractors and/or suppliers, the CM (or D-B) provides the City and MBD with copy of executed agreement or purchase order as documentation. **(Ref: use MBD Form-40 LOIs execute "Letters-of-Intent")**
- During construction, monitoring activities may including but may not be limited to, subcontractor payment reports to be submitted with pay requests, prior approval by the MBD Office and the managing departments, of any replacement of SLBE or W/MBE subcontractors, and a report of final amounts paid to all subcontractors.
